Agnitum Outpost Antivirus Pro is a comprehensive security tool that comes bundled with powerful options to protect your computer from all kinds of Internet perils. It features an antivirus and anti-spyware engine, real-time protection, quarantine manager, web control, and firewall. Intuitive interface with multiple scan profiles: It's wrapped in a user-friendly interface with a

clean design and neatly structured layout, where you can check out your security status when it comes to the protection components, last update time, and license expiration date. There are three scanning methods available: quick, full and custom. While the quick mode handles common malware hiding places on the computer and the full mode takes all locations into account, the custom scanning profile gives you versatility toward the advanced

settings. Configure advanced scanner settings: It's possible to create a list with file extensions to verify while excluding the rest, perform heuristic analysis in normal or in-depth mode, skip large files, verify archives and embedded OLE objects, as well as to add some predefined items to the scanner, such as running processes, boot sectors, startup entries, Windows system folder, and the Program Files folder. Settings can be restored to

default. Manage the quarantine and explore other tools: Infected or suspicious items are sent to the quarantine, where you can examine more information and decide whether you want to delete the files or restore them to their original spot if you deem them as safe. Agnitum Outpost Antivirus Pro has a self-protection module, auto-learning mode, entertainment profile, email scanner, web surfing protection, in addition to several modules

that ensure proactive protection, such as anti-leaking along with system, application and removable media safeguards. Plus, you can study all events. Buy Now A: Best antivirus for mac there are a lot of free and paid antiviruses that is recommended and tested by many other OS so I will recommend for every mac user you should try Avira and see how it works and feel free to contact me if you need any further details.
