
Flashtool 0.6.6 Windows!

[Download](#)

The flash tool for Xperia is actually called Emma, and today it works on all Windows computers, with a few exceptions*. This tool has been confirmed to work for .NET Compact Framework (2.0 and above), so it will work even on older machines with .NET 1.0 and below. This tool does not depend on the Framework libraries, so it will work even on computers without .NET. The tool can be found inside the C:\Program Files\Emma Tools\Emma Toolbox\Emma.exe folder in the folder where the .NET Compact Framework is installed. Search for Emma.exe in the folder where the .NET Compact Framework is installed to open the Help window.
