56 records Vista Password Recovery 2.5.14.0.Ms. Flowers / Edwin L. Patterson Ms. Flowers / Edwin L. Patterson 6.00 Kelly Flowers Ms. Flowers / Edwin L. Patterson There are many kinds of flowers. And for every kind of flower, there is only one ‘floral genius’. A floral genius, as we shall demonstrate in this episode of The Great Floriography, is not a specific breed of wild animal, or a totally isolated condition of uncommon intelligence. Rather, Ms. Flowers and Mr. Patterson, examples of cosmic creativity and imagination, are a couple of human beings possessing the gift and the skill to imbue flowers with their own kind of intelligence. They are great thinkers, great creators, and great poets of floristry, as well as great flower lovers themselves, and now they have set out to reveal to the common man the splendour of their work. We will be travelling together through the great flowering of humanity, learning about their technical skill and their creative gift. Of course, you will also be learning about the flowers that grow in our gardens, and will be able to recognise their beauty wherever you find them. But more than that, you will be learning about all the other flowers that are celebrated in our literary and artistic heritage, and how they have been depicted in the literature of mankind. And you will also be learning about the flowers that lurk in our plants, and the reasons why they have been there so long. Indeed, perhaps the most intriguing thing about them is that they have been there since the beginning of time, and yet, they look new every time you see them.
