ReFox: The UltimateFreewareDownload Manager: 16:13 Before you do anything, please read the following: 1. This is a Freeware only release, it's not a product. 2. Modification of any EXE or MSI packages can render the original package inoperative, or cause unwanted and often harmful side-effects. Do not do anything that might possibly harm you. 3. You do not have to have any money to use any of the sites to download free Freeware. That

said, you do not have to pay for the Free Software if you so choose. If you are planning to try it, work it out properly, if you don't like it then just plain uninstall it. 4. In fact, it's your plain and understandable responsibility to test all Free Software packages, including this one before actually using it.
